

Youth Sports & Performance

Acrobatics

Acro is a fun class where your child will learn the beginning foundations for floor gymnastics and beginning dance. You will be able to watch your child's confidence grow as they increase their coordination, balance, rhythm, flexibility, and strength. This class will help your child improve their large gross motor skills and help brain development in math and language.

Instructor: Natasha Kreitzer

Ages 6 - 12

Location: McClelland Center, 951 Delaware Street

Wear comfortable clothing.

ID#769230

Bouldering & Top Rope Climbing

Kids are natural climbers whether they're in the backyard, at the playground, or in your living room. Let our skilled coaches build your child's confidence while introducing them to a sport they can enjoy for a lifetime! LCC Rock Wall is the setting for this fun class. We'll help your little one get comfortable in a gym setting, calming any nerves through climbing games and lots of encouragement.

Parents are welcome to stay with their children or drop off.

Ages 6 - 12

LEGO First Robotics Club

FIRST LEGO League challenges kids to think like scientists and engineers while they work with a team to solve a real-world problem using LEGO MINDSTORMS technology, while FIRST LEGO League Jr. introduces kids to basic engineering and programming skills with LEGO Education WeDo and ignites their creativity with an exclusive LEGO Education Inspire Model while they explore a real-world theme with their team as well. Instructor: Bob Koenig

Ages 6 - 9 & Ages 9 - 14

2nd & 4th Monday Monthly

04/23 - 08/27 5:30-7:00 PM \$40.00RD \$40.00

Location: Woman's Club, 835 21st Avenue
ID#769686/774195

*Team members normally meet the 2nd and 4th Mondays from 5:30 to 7:00 pm. Additional times may be set and homework will be suggested. Our goal is to get kids to be able to create and build robotic components that will perform tasks and learn about sensors and programming the robot. The off season is when we teach, demonstrate and give the kids experience. During the season they will use those skills to build a competitive robot and complete their project. The actual season will start the end of August.

Stop-Motion Animation!

Learn the fundamental skills to produce a stop motion animation. Focus on conceptualization, creativity and creating smooth animation action. Create and use subjects from clay, pipe cleaners, Legos and other figures and come up with a short story idea. Learn daily what works well, does not work and then show your movies at the end of the week and discover the magic of Stop-Motion Animation! Instructor: Eric Spiering
